

Figure 1: The distributed system.

1 Abstract

2 Math

You can intersperse math, ~~Chinese and~~ English (Latin script) without adding extra environments. You can also insert Latin text in your document. Don't append.

Distributed computing is a field of computer science that studies distributed systems. A distributed system is a system whose components are located on different networked computers, which communicate and coordinate their actions by passing messages to one another from any system.

3 Distributed system
